

All Out Attack

Condemned 84

On the home front we'll do any old cunt if they stand in our way

This is our territory, that's the way it's gonna stay
Knowing the backstreets, like the back of your hand
Fighting for your pride like you'll fight for your land

Ambush the enemy, show no mercy
There's nowhere to run, nowhere to hide
No letting up, no turning back, no retreat in this attack

All out attack (x 3)
No looking back, no turning back
All out attack (x 3)
No yellow streaks running down our backs

Knowing the safe pubs where you've got the back up
Mates you can rely on in the middle of a ruck
Stashing your weapons before the old bill come in
The people that you trust like your next of kin
