

Better Life

Conditions

When I drive too fast and hit a wall
Or drink myself to the hospital
I'm the only one to blame
(Blame, blame, blame)

And as sirens haunt my city streets
And though that sound is after me
Calmly I await the change
(Change, change, change)

So don't wait
For the world to get better
You're gonna waste
The time you have
Ah, ah, and you won't get it back

When you fall
When you break
When you wish you didn't feel

Keep your head
Don't forget
It's the pain that makes us real

I know most of the time
It's hard to keep in mind
From lessons learned
Comes better life, better life

When I play too hard
And break my bones
Depress myself to the lowest lows
I'm the only one to blame
(Blame, blame, blame)

'Cause the choice is mine
And mine alone
And I choose to learn as I go
Clarity will come from pain
(Pain, pain, pain)

So don't wait
For the world to get better
You're gonna waste
The time you have
Ah, ah, and you won't get it back

When you fall
When you break
When you wish you didn't feel

Keep your head
Don't forget
It's the pain that makes us real

I know most of the time
It's hard to keep in mind

From lessons learned
Comes better life, better life

So don't wait
(Oh)
For the world to get better

So don't wait
(Oh)
For the world to get better

My understanding of
The world feels broken
And it's demanding
My immediate attention

You're looking up
Believing you will leave
Your problems below
Forget what you believe
Use what you know
(Use what you know)

When you fall
When you break
When you wish you didn't feel

Keep your head
Don't forget
It's the pain that makes us real

I know most of the time
(Most of the time)
It's hard to keep in mind
(Keep in mind)
From lessons learned
(Lessons learned)
Comes better life, better life
