

# Dreamland

Coney Hatch

I was borne by a western wind  
To a place I'd never been  
Thought I was inside a dream  
'Cause nothing was what it seemed

I climbed atop a mountain  
Called up to the sky  
I said I am a free man  
And if you want me don't even try

Oh, dreamland, dreamland is where I want to be  
Dreamland, dreamland, it was so real to me

Then I was flying across the ocean  
Watched the ships at sea  
Crossing over waves and commotion  
That's how I want to be

I climbed the cliffs at Dover  
Walked the streets of Rome  
I rolled in fields of irish clover  
And then the wind blew me back home

Oh, dreamland, dreamland is where I want to be  
Dreamland, dreamland, it was so real to me

(Solo)

Now there's a girl I used to know  
Thought it was over long ago  
But now I'm pounding on her door  
She says come in and love me some more

I walked into the bedroom  
Her kiss I could not believe  
Somewhere I heard an alarm bell ring  
I did not want to leave

Oh, dreamland, dreamland is where I want to be  
Dreamland, dreamland, it was so real to me  
Oh dreamland, dreamland I live my fantasy  
Dreamland, dreamland it was so real to me
