

Hey Operator

Coney Hatch

Well

I paid my money, dialed my numbers, got the operator on the line

I wanna call long distance, that little girl of mine
I know she'll be there, 'cause she said any night or day
I've just got to call her, and she'll be on her way
Ooh, I said, hey, operator, make her telephone talk to me
Hey, operator, make her telephone talk to me

Don't you rush me, let it ring some more
And don't try to tell me, that she's gone out the door
Well, talk, talk, talk, that's all you ever do
I paid my money, I want some results from you
Ooh, I said, hey, operator, make her telephone talk to me
I said, hey operator, make her telephone talk to me

I don't care how you do it
You've got your buttons and wires and
You'd better put her voice through to me
Through to me, through to me, hey

I said hey operator, make her telephone talk to me
Hey operator, make her telephone talk to me
I said hey operator, make her telephone talk to me
Hey operator, make her telephone talk to me
Hey operator
