

# We Got The Night

Coney Hatch

Now that we're here let's see what the night will bring  
We're an army of one and we're here for just one thing

Let's get that feelin' in the air  
(Let's get that feelin' in the air)  
Break all the rules if you dare  
(Break all the rules if you dare)  
Let's get that feelin' in the air  
We got the night the night belongs to us  
(Night belongs to us)  
We got the night the night belongs to us  
(Night belongs to us)

(Solo)

Forget what the day brought, 'cause time is about to stand still  
Remember we're one if you don't you can bet, we will

Let's get that feelin' in the air  
(Let's get that feelin' in the air)  
Break all the rules if you dare  
(Break all the rules if you dare)  
Let's get that feelin' in the air  
We got the night tonight belongs to us  
(Night belongs to us)  
We got the night tonight belongs to us  
(Night belongs to us)  
We got the night tonight belongs to us  
(Night belongs to us)  
We got the night tonight belongs to us  
(Night belongs to us)
