

Now or Never

Confide

You have my attention ,
there is not a question
You know what i'm feeling
You'll show me the way out
It's a certain feeling
That i can't describe
I see your face when I close my eyes
There's something that's missing
I'm not one to listen
You've told me before
but my ears are all yours now
It has to be
Now or never
You can't wait on me forever
and if you know me all so well
You know i haven't been so well ..
and if you know me all so well
You know i haven't been so well lately

I said i would try to get through this
but we know it won't last forever
Don't let me go (don't let me go)
I said i would try to get through this
but we know it won't last forever
don't let me go (don't let me go 2x)

This could be , this could be
the death of us all !
I won't keep you waiting ,
I know that I'm changing
That just gives me a reason
to prove that i'm willing
I almost close down from all
that i hide
i know things are better
when you're by my side
I hopping you see that
I'm honestly trying to keep
my ways clean and to show you a better side
This is it
a new me for you
a new begining is all I can do

I said i would try to get through this
but we know it won't last forever
Don't let me go (don't let me go)
I said i would try to get through this
but we know it won't last forever
don't let me go (don't let me go 2x)

If i believed in myself
as much as I believe in you
this would be so much easier
but it's not so come get me
I can't keep bringing myself down
i tear myself apart
It has to stop.

I said i would try to get through this
but we know it won't last forever
Don't let me go (don't let me go)
I said i would try to get through this
but we know it won't last forever
don't let me go (don't let me go 2x)

and if you know me all so well
You know i haven't been so well .
