

Forever Lost

Conjure One

So many times, so many promises
Heard all the lies, I've heard all the things you've said
Truth is like a fear, fear of heaven
Truth's your only fear, fear of heaven

When I wanna know the highs and lows
Give me something
Forever lost and I try
Give me something

So hard we try, sold on your promises
Lay it on the line, lay out the trauma there for me
Truth is like a fear, fear of heaven
Truth ain't always clear, clear like heaven

And I wanna know the highs and lows
Give me something
Forever lost and I try
Give me something

Give me something
Give me something

And I wanna know how much I show
All the wrong things
Forever lost and I try
We're after the same things

And I wanna know the highs and lows
Give me something
Forever lost and I try
Give me something

Give me something
