

Run for Cover

Conjure One

The wind it cries Familiar songs And now it's time To put on the armor It's the calm before

It came to me in a dream It came to me in a dream

No warning signs Time to decide On a flight A new destination I feel it coming

It came to me in a dream It came to me in a dream

Take your lover Run for cover The thunder's rolling in Take your lover Run for cover The tides are crashing in

It came to me in a dream It came to me in a dream

The wind it cries Familiar songs And now it's time A new destination I feel it coming

Take your lover Run for cover The thunder's rolling in Take your lover Run for cover The tides are crashing in

It came to me in a dream...

Hold on tight The tides will take it Don't be frightened Pleasant changes

Hold on tight The tides will take it Don't be frightened Pleasant changes

Take your lover Run for cover The thunder's rolling in...
It came to me in a dream...

(The wind it cries) (Familiar songs) (Leave it all behind) (The burden gone)
It came to me in a dream
