

Hello Walter

The Connells

And yeah I believed him when he said he'd seen you out,
and some other thing about calling it even, and the way our bridges burned,
and the things we never learned, oh, never learned, and how he was concerned.
But I think it's starting to turn.

Hello Walter. I'm amazed that you are here.
And it's nice you know for awhile.
And the only sound to reach my ears is "How have you been?"

Down at the river where the freaks would do their best, and The Brothers came to rest.
Mostly together, and we thanked our lucky stars for a world waiting,
and once opened the bars, and guitars, always guitars.
And how did we get where we are?

Hello Walter. I'm amazed that you are here.
And it's nice you know for while.
And the only sound to reach my ears is "How have you been?"
