

## Too High

The Connells

So the trouble got your tongue  
and all you pulled it out together  
Finally set things straight  
sounds about right  
Being something  
well I don't think so,  
you do nothing like I doubt you will  
being something  
What's that now and  
what's that you forced?  
Better known as the answer  
What's that you now and  
what's that you forced?  
On you own it's just the same.  
but you're sure it's for the better.  
Always on the fence  
well the words just won't ring true.  
Being something  
well I don't think so,  
you do nothing like I doubt you will  
being something  
What's that now and  
what's that you forced?  
Better known as the answer  
What's that you now and  
what's that you forced?
