

Majesty Of Love

Connie Francis

With Marvin Rainwater

Every time you're close
When you touch me tenderly
I feel the majesty of love

Every time you hold my hand
In my heart I understand
This is the majesty of love

Only you, only you
Can hold me with one little kiss
Only you, only you
Could make me feel like this

Keep on holding me this way
We were meant to be this way
This is the majesty of love

Tell me you're forever mine
Tell me till the end of time
We'll share the majesty of love
Love
