

Before I'm Over You

Connie Smith

I just can't get it through my head you love another now instead

Can't make myself believe we're really through

I'm walking up and down the hall talking to a silent wall

I'll lose my mind before I'm over you

I just can't get you off my mind I think about you all the time

I'm going crazy yes I know and I don't have far to go

The way you treat me is a shame but I'll keep loving you the same

I'll lose my mind before I'm over you

I keep your letters I should burn I wear your ring I should return

But there's a million foolish things I do

It makes me cry but you would laugh to know I kiss your photograph

I'll lose my mind before I'm over you

I think I've almost lost my mind I think about you all the time

I'm going crazy yes I know and I don't have far to go

The way you treat me is a shame but I'll keep loving you the same

I'll lose my mind before I'm over you
