I'm So Used To Loving You

Connie Smith

I'm so used to loving you sweetheart you're on my mind each min ute we're apart

And I love you more each day we go through Yes you're my life and I'll live it loving you

I'm so used to loving you it seems
I can't stand the thought of losing you not even in my dreams
Hold me close and tell me what I'd do without you
I couldn't take it I'm so used to loving you

I'm so used to the little things you say like hello darlin' did
 you have a busy day
And the way you hold me close when day is through
Yes you're my love and I'll love it loving you
I'm so used to loving you it seems
I'm just too used to loving you
