

# I Never Once Stopped Loving You

Connie Smith

The nights were dark and long  
I spent a million all alone  
But I never once stopped loving you  
My world was cold and still  
My dreams lay unfulfilled  
But I never once stopped loving you

I never once stopped believing we'd love again  
The way we used to do  
And today when you came back my patience was rewarded  
For I never once stopped loving you

I could have loved another  
But I chose the way and suffered  
For I never once stopped loving you  
And I prayed to God to guide you  
Till I could be beside you  
And I never once stopped loving you

I never once stopped believing we'd love again  
The way we used to do  
And today when you came back my patience was rewarded  
For I never once stopped loving you
