

## Just A Little Sunshine In The Rain

Connie Smith

Like a wond'rous dream that ends with dawn  
Your love touched my heart then you were gone  
Though I couldn't keep you for my own you're the only happiness  
I've known  
You're the one who taught me how to smile your love brightened  
up my world awhile  
Warm and tender darling you remain just a little sunshine in the  
rain  
You're the one who taught me  
Just a little sunshine in the rain
