

Lovin' You Baby

Connie Smith

Well lovin' you sure is great I follow every step you take
I'm watchin' every move you make oh baby
Don't you know honey child you really got a lovin' kind
I'm lovin' everytime you smile oh baby
Oh oh oh I get this feeling when I'm close to you
Oh oh oh now I can think of anything better
When you and me alone together
I love lovin' you baby
You got to be one of the kind cause everything you do is so fine
Well I think it's all a dream some time oh baby
Lovin' you sure is great I'm watchin' every move that you make
And I follow every step that you take oh baby
Oh oh oh I get this feeling when I'm close to you
Lovin' you sure is great I'm watchin' every move that you make
And I follow every step that you take oh baby
