

My Ecstasy

Connie Smith

I wish the world could feel what we both know is real
Sweetheart you'll always be my ecstasy
You are my dream to share my every hope and care
Sweetheart you'll always be my ecstasy
Your love unveiled the world I'd never known before
When your love fooled inside I softly closed the door
Your heart is tuned with mine in harmony they rhyme
Sweetheart you'll always be my ecstasy
Your love unveiled...
