

## My Ecstasy

Connie Smith

I wish the world could feel what we both know is real  
Sweetheart you'll always be my ecstasy  
You are my dream to share my every hope and care  
Sweetheart you'll always be my ecstasy  
Your love unveiled the world I'd never known before  
When your love fooled inside I softly closed the door  
Your heart is tuned with mine in harmony they rhyme  
Sweetheart you'll always be my ecstasy  
Your love unveiled...
