

Only For Me

Connie Smith

If I were to lose your love if you ever go
The stars still would shine above for ups I know
As blue as it's always been the sky still would be
For darling the world would end only for me
Only for me the sun no more would shine if I lost you how dark
the night would be
Only for you I live this life of mine you are the one love mean
t only for me
The seasons would pass the same but I wouldn't know
The summer would bring the rain and winter the snow
In spring there'd be daffodils that others could see
For time would be standing still only for me
Only for me
