

## Only For Me

Connie Smith

If I were to lose your love if you ever go  
The stars still would shine above for ups I know  
As blue as it's always been the sky still would be  
For darling the world would end only for me  
Only for me the sun no more would shine if I lost you how dark  
the night would be  
Only for you I live this life of mine you are the one love mean  
t only for me  
The seasons would pass the same but I wouldn't know  
The summer would bring the rain and winter the snow  
In spring there'd be daffodils that others could see  
For time would be standing still only for me  
Only for me
