

## Too Soon To Know

Connie Smith

It's too soon to know if I can forget her  
My heart's been broken into many pieces and it's too soon to know  
Time passes slow will I ever know  
If I can forget her and not let it show but it's too soon to know  
News travels fast when a love affair ends  
People keep asking what happened to them  
But it's too soon to know if I can forget her  
My heart's been broken into many pieces and it's too soon to know  
My heart's been broken into many pieces and it's too soon to know
