

Too Soon To Know

Connie Smith

It's too soon to know if I can forget her
My heart's been broken into many pieces and it's too soon to know
Time passes slow will I ever know
If I can forget her and not let it show but it's too soon to know
News travels fast when a love affair ends
People keep asking what happened to them
But it's too soon to know if I can forget her
My heart's been broken into many pieces and it's too soon to know
My heart's been broken into many pieces and it's too soon to know
