

# Don't Forget

Conor Maynard

You can dance with anybody if you wanna dance  
I know you didn't come just to sit and watch me with a drink in my hand

You can laugh with anybody who can make you laugh  
You're the baddest, I'm barely looking at you, girl do you understand?

And all night long  
I'm tryna get you out of here  
And baby it's alright  
As long as you don't forget

Just don't forget  
Who's taking you home  
Who's holding you close  
When everyone's gone  
Just don't forget  
Who's tucking you in  
When records don't spin  
Again and again  
Just don't forget  
And all night long  
I'm tryna get you out of here  
And baby it's alright  
As long as you don't forget  
Just don't forget

Just don't forget

Looking good, now I see you from the other side  
If this is what they see when I'm with you then I'm a lucky guy yea

It's so good, go ahead and spread your wings tonight  
It's only right  
Well you look so fly

And all night long  
I'm tryna get you out of here  
And baby it's alright  
As long as you don't forget

Just don't forget  
Who's taking you home  
Who's holding you close  
When everyone's gone  
Just don't forget  
Who's tucking you in  
When records don't spin  
Again and again  
Just don't forget  
And all night long  
I'm tryna get you out of here  
And baby it's alright  
As long as you don't forget

Going, do you?  
It's your tonight  
I'll be waiting, take your time

And you know whenever you're ready we'll go  
As long as I get you alone  
Where there's no distraction there's only attraction girl

Just don't forget  
Who's taking you home  
Who's holding you close  
When everyone's gone  
Just don't forget  
Who's tucking you in  
When records don't spin  
Again and again  
Just don't forget  
And all night long  
I'm tryna get you out of here  
And baby it's alright  
As long as you don't forget  
Just don't forget

(Just don't forget)
