

Stand Up For Love

Conor Maynard

Just step on to the floor, looking for the world
The world is perfect
Pic-pic-pic-picture perfect.
Think I found the frame, wanna play a game?
Yes, yes, she got me chasing
No, no, not I'm not complaining!
(I'm gonna take you right back!)
Right back to the moment
Now you're gonna own it!
(You're gonna see the spotlight)
Now working on the problers
Stand up, cause you know that, yeah, yeah!

Cause if we all stand up for love
I swear we gonna make it, swear we gonna make it!
I got the heart of a champion
And nothing's gonna break it, nothing's gonna take it!
Cause if we all stand up, we all stand up,
We all stand up for love!
Cause if we all stand up for love
Then I swear we gonna make it,
I swear we're gonna make it
Stand up for love!

Yesternight was yours, wanna take it, it's ours
So, so much to show you, before the night is over.
Nothing to explain, girl you built that way
And now you blow my mind,
Fuck every single time!
(I'm gonna take you right back!)
Right back to the moment
Now you're gonna own it, own it!
(You're gonna see the spotlight)
Now working on these probers
Stand up, cause you know that, yeah, yeah!

Cause if we all stand up, we all stand up,
We all stand up for love!
Cause if we all stand up for love
Then I swear we gonna make it,
I swear we're gonna make it
Stand up for love!

Cause if we all stand up for love
I swear we gonna make it, swear we gonna make it!
I got the heart of a champion
And nothing's gonna break it, nothing's gonna take it!
Cause if we all stand up, we all stand up,
We all stand up for love!
Cause if we all stand up for love
Then I swear we gonna make it,
I swear we're gonna make it
Stand up for love!
Stand up, stand up, stand up
Stand up, stand up, stand up
Cause you gotta stand up for love, for love!

Cause if we all stand up for love
I swear we gonna make it, swear we gonna make it!
I got the heart of a champion
And nothing's gonna break it, nothing's gonna take it!
Cause if we all stand up, we all stand up,
We all stand up for love!
Cause if we all stand up for love
Then I swear we gonna make it,
I swear we're gonna make it
Stand up for love, for love, for love!
Stand up for love!
