

# Road To Nowhere

## Conquest

About now to hold the night  
I need you, become my light

So many years I've been searching for true  
Finally found only you

To nowhere my road leads  
Coming down, down to defeat

Show me the path to the glorious fate  
Got no more ways through this gate

I will walk in the shadows of majestic trees  
Mending all I've done wrong by my hands  
Higher time for me to get inspired by peace  
Treading down all the roads and trends

Show me the path to the glorious fate  
Got no more ways through this gate

[CHORUS]
