

## Save Me

Conquest

Time is rolling back my life  
Who am I to all of you?  
I can't decide.  
Cut with the sharpest knife  
All these moments we've been through  
Left behind

In the ashes dreams remain  
Waiting 'till another day

Home – another painful lie  
Frozen flames of feelings gone  
Dead inside  
There I have lost your smile  
Clear sky, where I belong  
Guiding light

Can't you feel the past is gone?  
Please, forget mistakes I've done

Save me from hell endless falling  
Break midnight spell and I'll fly again  
Can't see your face eyes are burning  
I need your love to regain

In the darkness lives the pain  
Every moment is the same
