

Little Precious Cargo

Consequence

On August 17th, 2011 Jen and I received this special delivery
That changed our whole world!

I'll never let nobody near you who will bring you sorrow
Everyone one knows you're my little precious cargo!
(My, my baby boy) my little precious cargo
(My, my baby boy) my reason for tomorrow
My little precious cargo,
You're my little precious cargo!

You are my lil gift from God when the world diced me
And my plans went up in smoke like I swept a chimney
Which had me pissed off, mourn and broken kidneys
Right before I lost hope, look what the Lord will give me!
A split image who will carry on my legacy
And help me carry out what was meant to be
You see your pedigree said you'll be ...a parent
Since you came into this world to repair your parents
Trying to prepare for marriage and bridal showers
And with me and your only... in your private hours.
Just guarantee more anniversaries
And we'll go overboard on your nursery
One thing is soon to see, you never beg and borrow
Cause you are our little precious cargo!

I'll never let nobody near you who will bring you sorrow
Everyone one knows you're my little precious cargo!
(My, my baby boy) my little precious cargo
(My, my baby boy) my reason for tomorrow
My little precious cargo,
You're my little precious cargo!

Am I overprotective cause I'm more than selective
Of who I chose to... my first born be left with?
See, I need a nanny, not just a friend dress you
So I'm peeping everything from your hand gestures
See your body language, all for tough questions
Cause when it comes to your kid, can't ask enough questions
So if you hear the no they want to avoid
I won't trust them with your bundle of joy
See whether girl or boy, ...
A few days a week or even over night
A babysitter is exactly that,
They're sitting with your baby till you get back!
And you don't wanna come home to your Shawty like a zombie
Your inner dirty dipper screaming on for mommy
And God forbid, worst than that will leave your heart broke
So make Shawty pass inspection with your cargo!

I'll never let nobody near you who will bring you sorrow
Everyone one knows you're my little precious cargo!
(My, my baby boy) my little precious cargo
(My, my baby boy) my reason for tomorrow
My little precious cargo,
You're my little precious cargo!

Once we found out that Jen was having a baby

We took our time to make sure that everything will be perfect
We picked the perfect name, even made sure
His nursery will be perfect from when he'll come home from the hospital
And since Kate is growing up
We gotta make sure we pick the perfect person to be his baby sitter
Now that we're parents we understand
They're not just watching your kid
They're taking care of your little precious cargo!

I'll never let nobody near you who will bring you sorrow
Everyone one knows you're my little precious cargo!
(My, my baby boy) my little precious cargo
(My, my baby boy) my reason for tomorrow
My little precious cargo,
You're my little precious cargo!
