

## Black Cloud

Converge

thousand miles  
forgetting  
anything  
everything  
wheels racing  
black cloud gaining ground  
engine roars  
rain pours down  
the chase is on  
my black cloud  
gaining ground  
three years spent  
outrunning  
my demon  
and her ring  
keep moving  
with engine heart  
and boiled blood  
i will push on down  
my wounded roads  
i can outrun  
i will outrun you all  
horsepower hope  
find me a home  
in brand new arms  
that won't let go  
racing on to my end
