

## Broken by Light

Converge

Emotion sickness afterglow  
A darkness reigns over all  
But it's the white noise harmony  
That I find so troubling  
And the echo of that whisper  
Said how much better it used to be  
As a petal fell from the rose  
Withering as a long forgotten dream  
Phantom broadcast from the past  
Predicts the end of all good things  
But it's the white noise harmony  
That I find so troubling  
And the echo of that whisper  
Said how much better it used to be  
As a petal fell from the rose  
Withering as a long forgotten dream  
Broken by light
