

## Versus

## Converge

It's us versus them  
Jaws are biting at your heels  
We hunt you in bad dreams  
We know just what you are  
The secrets that you keep  
Cloven hoof is pounding faster than your heart  
Strength in desperation and the sting of loss  
Time to cut them down  
It's us versus them  
Time to take a stand  
It's us versus them
