## **All My Life**

## **Conway Twitty**

Maybe it's the way you kiss me Or that twinkle in your eye Maybe it's the way you hold me And keep me satisfied Just as long as you love me I guess it doesn't matter why You're the one I've dreamed of All my life.

Maybe it's the way I sometimes catch you With my reflection in your eyes
Maybe it's the times I tease you
And you laugh until you cry
Just as long as you love me
I guess it doesn't matter why
You're the one I've dreamed of
All my life.

Maybe it's the way you kiss me Or that twinkle in your eye Maybe it's the way you hold me And keep me satisfied Just as long as you love me I guess it doesn't matter why You're the one I've dreamed of All my life.

You're the one I've dreamed of All my life...
