

## Before Your Time

Conway Twitty

Other arms have held me before your time  
Other lips have thrilled me before your time  
Other eyes have seen the light  
You see in my eyes tonight.  
Oh, but darling, that was long before your time.

Other hearts have been broken before your time  
Unkind words were spoken before your time  
Other ears have heard me  
Say the things I say to you today  
But darling that was long before your time.

Before you came along I sang this same old song before  
The melody was born when we walk right through love's door  
The words I love you came but I just couldn't sing that line  
Oh, but darling, that was long before your time.

Before you came along I sang this same old song before  
The melody was born when we walk right through love's door  
The words I love you came but I just couldn't sing that line  
Oh, but darling, that was long before your time...
