

Call It What You Want To

Conway Twitty

You tell me that it's over
I'm just someone you think of now and then
And you say that you once loved me
But the love you had for me came to an end.

And you tell me that my memory
Is just a dying ember not a flame?
Well, you can call it what you want to
It's still love by any other name.

Call it what you want to
I still bring out the want to in your eyes
Every time that I'm around you
The desire that surrounds you just can't be disguised.

You can call it anything at all
But what you're telling me don't change a thing
You can call it what you want to
I still bring out the want to in your eyes.

Every time that I'm around you
The desire that surrounds you just can't be disguised
You can call it anything at all
But what you're telling me don't change a thing.

Baby, call it what you want to
It's still love by any other name
