

Don't It Feel Good

Conway Twitty

Don't it feel good, babe... don't it feel right
Lyin' here beside you, holdin' you so tight
Longin' to satisfy love's appetite
Don't it feel good, babe... don't it feel right.

I love the way that you touch me, the way that you kiss me
The soft way you whisper in my ear
Your lips are burnin' like fire, fillin' me with desire
Girl, I can't think straight when you; re near.

Don't it feel good, babe... don't it feel right
Lyin' here beside you, holdin' you so tight
Longin' to satisfy love's appetite
Don't it feel good, babe... don't it feel right.

We found a good thing together, so close to each other
In this lovin' fever that we've caught
I want to hold you forever... there ain't nothin' better
Let's just hold on to what we've got.

Don't it feel good babe... don't it feel right
Lyin' here beside you, holdin' you so tight
Longin' to satisfy love's appetite
Don't it feel good, babe... don't it feel right.

Don't it feel good, babe... don't it feel right
Lyin here beside you, holdin' you so tight
Longin' to satisfy love's appetite
Don't it feel good babe... don't it feel right...
