

Dream Maker

Conway Twitty

You are my dream maker
Taking me places I've never been
Making me feel so alive again
Tell me that all of this will never end.

You are my dream maker
Chasing away all of my blues
With these dreams of me and you
Dream maker, make my dreams come true.

Dreams, beautiful dreams
Dreaming of two
I used to never have these kind of dreams till you
You came along
And painted my nights, with all your love.

You are my dream maker
Taking me places I've never been
Making me feel so alive again
Tell me that all of this will never end.

You are my dream maker
Chasing away all of my blues
With these dreams of me and you
Dream maker, make my dreams come true.

Nights, long, lonely nights
Wondering when
All my loneliness was ever gonna end
Then I saw you
Just one look, that's all it took.

You are my dream maker
Taking me places I've never been
Making me feel so alive again
Tell me that all of this will never end.

You are my dream maker
Chasing away all of my blues
With these dreams of me and you
Dream maker, make my dreams come true.

You are my dream maker
Taking me places I've never been
Making me feel so alive again
Tell me that all of this will never end...
