

## Dy-no-mite

Conway Twitty

It's dy-no-mite where you love me  
I've got the fire that burns to prove just that  
Yes, it's dy-no-mite where you love me  
You lit my fuse and blew me off and out.

I thought that I was cool, calm and elected  
Welcome to the club, I thought so too  
But I got more charge from you that I expected  
Ain't we glad the combination works so good

It's dy-no-mite where you love me  
I've got the fire that burns to prove just that  
Yes, it's dy-no-mite where you love me  
You lit my fuse and blew me off and out.

I thought it jingles each time you come near me  
I get all shook up every time we touch  
It's gettin' harder every time you left me  
You know a man can only stand so much.

It's dy-no-mite where you love me  
I've got the fire that burns to prove just that  
Yes, it's dy-no-mite where you love me  
You lit my fuse and blew me off and out.

It's dy-no-mite where you love me...
