## **Dy-no-mite**

## **Conway Twitty**

It's dy-no-mite where you love me I've got the fire that burns to prove just that Yes, it's dy-no-mite where you love me You lit my fuse and blew me off and out.

I thought that I was cool, calm and elected Welcome to the club, I thought so too But I got more charge from you that I expected Ain't we glad the combination works so good

It's dy-no-mite where you love me I've got the fire that burns to prove just that Yes, it's dy-no-mite where you love me You lit my fuse and blew me off and out.

I thought it jingles each time you come near me I get all shook up every time we touch It's gettin' harder every time you left me You know a man can only stand so much.

It's dy-no-mite where you love me I've got the fire that burns to prove just that Yes, it's dy-no-mite where you love me You lit my fuse and blew me off and out.

It's dy-no-mite where you love me...
