Hero For A Day

Conway Twitty

Lady, you need a lover Someone to take you and love you all the way I know you long for that feelin' For a man to be stealin' your heart away You need a hero for a day.

You'll never be missin' the moments when we're kissin' I'll never steal your love away Just let me borrow one memory for tomorrow I'll be your hero for a day.

Lady, you need a lover Someone to take you and love you all the way Let me be the hero A place where you can go Let me be your hero for a day Lady, I'll be your hero...
