

## Hey Little Lucy! (don'tcha Put No Lipstick On)

Conway Twitty

Mmm, baby, when I take you out tonight  
Fix your hair, dress up right  
Paint your fingertips nice and red  
But leave your sweet, sweet lips alone

Little Lucy, don'tcha put no lipstick on  
(Little Lucy) don'tcha put no lipstick on  
Before the night is through  
I'm gonna kiss it right off  
Right off of you

Baby, you can wear your French perfume  
The pink chenise that rocks the room  
But if you want a little old love to bloom  
Leave your sweet, sweet lips alone

Little Lucy, don'tcha put no lipstick on  
(Little Lucy) don'tcha put no lipstick on  
Before the night is through  
I'm gonna kiss it right off  
Off of you

Baby, do you want the folks to know  
How your lips, mmm, thrill me so  
Every little kiss we share, we'll show  
So leave your sweet, sweet lips alone

Little Lucy, don'tcha put no lipstick on  
(Little Lucy) don'tcha put no lipstick on  
Before the night is through  
I'm gonna kiss it right off  
Right off of you

Yeah, Little Lucy  
Don'tcha put no lipstick on  
Baby, don't you do it...
