

How Far Can We Go

Conway Twitty

Oh how far can we go you and me doin' this

We're doin' the things that only sinners do
But I can't keep my mind off of you
We made a mistake one night and didn't quit
So how far can we go you and me doin' this

We're strangers by day and lovers by night
And I feel like a thief when I hold you tight
The ring on my finger shows that I'm still his
So how far can we go you and me doin' this

Lovin' like there's no tomorrow or past
We're takin' the backroad go and know how fast
The ring on my finger shows that I'm still his
So how far can we go you and me doin' this
So how far can we go you and me
Me and you everyday all the time doin' this
