

# I Got A Good Thing Going

Conway Twitty

I got a good thing going and I guess it's showing  
Everybody knows what I've got going's going wrong  
She loved me and I let her down and that upset her  
And now the good thing I got going's going going gone

And I just started feeling the realness of her leaving  
And without a doubt she's the reason that I sing this song I'm  
singing

I got a good thing going and there's no way of knowing  
Just how far her leaving's gonna take her off or how long  
She never thought I'd amuse her but I sure misused her  
I got a good thing going going going gone

And I just started feeling

I got a good thing going going going gone
