

# I'm the Man In the Song

Conway Twitty

I've never had a way with words  
To say just how I feel.  
But the love that I have for you  
Could never be more real  
Turn the radio up loud  
And lay down next to me  
And listen to the words the singer sings.  
'Cause I'm the man in the song.

He's found the words  
I've been searchin' for so long.  
Everytime he sings he needs you  
And his love for you is strong.  
Think of me I'm the man in the song.

(Here him sing)  
He's been waitin' for you all his life.  
(Here him sing)  
He's found heaven in your arms tonight.  
The most beautiful girl in the world has come his way  
And he's telling you the words I want to say.  
'Cause I'm the man in the song.

He's found the words  
I've been searchin' for so long.  
Everytime he sings he needs you  
And his love for you is strong.  
Think of me I'm the man in the song.  
I'm the man in the song.

He's found the words  
I've been searchin' for so long.  
Everytime he sings he needs you  
And his love for you is strong.  
Think of me I'm the man in the song...
