

It Turns Me Inside Out

Conway Twitty

In a way I'm glad it's over
Even though it's gonna hurt me once you're gone
I can learn to live without you
Give me time and I can make it on my own

Lovin' you to me came easy
Now losing you will change my life no doubt
And in a way I'm glad it's over
In another way it turns me inside out

In a way I guess it's better
Even though there's nothing good about goodbye
But I know I couldn't hold you
Now you've found your wings and you need room to fly

And it's for sure I'm gonna miss you
But I guess that's what goodbye is all about
And in a way I'm glad it's over
But in another way it turns me inside out

On the one hand I know
I'll be better off once you're gone
But I find a lot of heartache on the other
And I can't say I'll look forward to those nights I'll spend alone
And I wonder will there ever be another

Loving you to me came easy
Now losing you will change my life no doubt
And in a way I'm glad it's over
In another way it turns me inside out

Yes, in a way I'm glad it's over
But in another way it turns me inside out
