Story Of My Love

Conway Twitty

Darling, were not very old But theres a love story that has to be told By stars above I swear that it's true It's the story of my love, for you. (my love for you)

It starts when you came into my life You vowed someday you'd be my wife Sweetheart, I thought the world of you You made my world of dreams come true (of dreams come true)

The years may come, and years may pass And I reach the end of lifes journey at last Though time may change me in some ways it's true It could never change my love, for you. (change my love, for you)

Oh, when I'm gone, you bury me On the highest mountain of history Then all the world will hear me cry My love for you will never die. (for you will never die)...
