

The Clown

Conway Twitty

You love the way it makes me feel when I can't catch my breath
Like walkin' on a high wire, Lord, it scares me half to death
You're always high above me and I'm always fallin' down
Our love's just a circus baby, and I'm just the clown

And I'll do tricks for you, just like you want me to
I'll do anything it takes just to hang around
I'll paint a smile for you to cover up my frown
'Cause our loves a circus and I'm just the clown

Everyone's in love with you, but they just look at me and laugh

And I'll bet when they see me cry, they think it's just an act
Ah, but someday when it's over and we bring the big top down
You can say it was one big circus and I was just the clown

And I'll do tricks for you, just like you want me to
I'll do anything it takes just to hang around
I'll paint a smile for you to cover up my frown
'Cause you love the circus, but you don't love the clown
