

# Things I Lost In You

Conway Twitty

It's over I've known it for a long time  
So I went out and found somebody new  
She gave me the kind of love I wanted  
And I found in her the things I lost in you

I loved you darling how I loved you  
I still recall each tender memory  
But there's one thing I guess I'll never understand  
What made you turn and walk away from me

I thought it would last for a lifetime  
I didn't think you'd ever prove untrue  
Ah but it's over I found someone who really cares  
And I found in her the things I lost in you
