

## This Road That I Walk

Conway Twitty

Well this road that I walk is a mighty lonely road  
And this load that I bear is a mighty heavy load  
And this song that I sing is a mighty lonely song  
I had a true love but I've done her wrong  
(He had a true love but he's done her wrong)

Well this road that I walk it has no end  
And on this road I walk I have no friends  
The people that I pass are people just like me  
Doomed to forever walk this road of misery  
(He had a true love but he's done her wrong)  
(Now he walks this road of misery alone)

Well this road that I walk is for fools like you  
This road that I walk you're gonna walk it too  
Each step that you take rules you not very smart  
You had a true love but you broke her heart  
You had a true love but you done her wrong  
Like me you must walk this road of misery alone

You had a true love but you done her wrong  
Like me you must walk this road of misery alone
