

# Together Forever

Conway Twitty

Together, forever and always  
No more sleepless nights and lonely days  
I promise, I've hurt you for the last time  
We'll be together, forever and always

I've cheated and I've lied to you so many times  
And I'm sorry more than words can say  
But I'll make it, yes, I'll make it up to you in time  
We'll be together forever and always

Together, forever and always  
No more sleepless nights and lonely days  
I promise, I've hurt you for the last time  
We'll be together, forever and always
