

Together Forever

Conway Twitty

Together, forever and always
No more sleepless nights and lonely days
I promise, I've hurt you for the last time
We'll be together, forever and always

I've cheated and I've lied to you so many times
And I'm sorry more than words can say
But I'll make it, yes, I'll make it up to you in time
We'll be together forever and always

Together, forever and always
No more sleepless nights and lonely days
I promise, I've hurt you for the last time
We'll be together, forever and always
