

## You And Your Sweet Love

Conway Twitty

I wish you only knew all the days, I've made it through  
Because of you and your sweet love  
I wish that I could count the times, peace and comfort filled m  
y mind  
Because of you and your sweet love

You're what keeps me going  
The sun that lights my sky  
The rose that blooms in winter  
The rain that cools July

Never try to tell me that it wasn't God above  
That sent me you and your sweet love

Almost every night it seems, you come walking through my dreams  
Precious you and your sweet love  
And tonight though we're apart, there's a fullness in my heart  
Thanks to you and your sweet love

You're the rock I cling to  
The star I wish upon  
The water in my desert  
The anchor in my storm

Never try to tell me that it wasn't God above  
That sent me you and your sweet love  
Precious you and your sweet love
